

This diagram shows a cross-sectional view of a device assembly. On the left, a block with diagonal hatching (4) is connected to a central block with cross-hatching (2). The central block contains a rectangular feature with a circle inside (1). Below the central block is a thin layer (5) and a thicker layer with a cross-hatch pattern (7). To the right, a block with a dotted pattern (8) is positioned between the central block and a large vertical structure (11). The vertical structure (11) contains several vertical lines (10).
